Dr. H. Roger Smith
Redesigns Unlimited
113 Lincoln Street
Mankato, Minnesota 56001

Dear Dr. Smith:

This Agency recently received for consideration a copy of your correspondence to Senator Dave Durenberger, submitting conceptual drawings of an anti-vehicle security device. A review of these drawings reflects that the proposed scheme appears quite similar to several vehicle barrier systems already available within the U.S. market. The device shown in your particular drawings does not seem to offer significant advantages over the available systems. The information submitted will, however, be provided to the procurement element of this Agency for their use in meeting any future needs for equipment of this type.

Your interest in protecting the vital security equities of the U.S. Government is appreciated. Should additional devices of this type be developed by your firm, this Agency would be interested in reviewing such data.

Sincerely,

Director of Security

SELECT COMMITTEE ON INTELLIGENCE
WASHINGTON, DC 20510

February 20, 1986

Mr. Richard Kerr
Director of Administration
Central Intelligence Agency
Washington, D.C. 20505

Dear Mr. Kerr:

Senator Dave Durenberger recently received a letter from Dr. H. Roger Smith of Redesigns Unlimited, in which Dr. Smith describes an anti-vehicle security device for the protection of vulnerable installations. On the surface at least, Senator Durenberger feels it may be of use at a number of our sensitive installations both here and abroad.

Senator Durenberger asked that I forward the letter to you for your consideration. Please feel free to correspond with Dr. Smith directly if you feel his proposal merits further study.

Sincerely,

Gary Moore
Director of Security
